

FIRE TRUCK REPAIR, INC.

Service and repairs on all makes and models

May 5, 2006

To Whom It May Concern:

R&R Fire Truck Repair, Inc. is a fire service specific repair organization serving over 400 fire departments in the state of Michigan. We are a certified Champion, Hale, and Waterous service facility and a service center for American LaFrance, KME, SVI, and many others. We have been witness to and have repaired multiple fire pumps and foam systems damaged by foams and certain water enhancing products over the years.

We have been monitoring the Fire Cap product for over 2 years for damage resulting from its use to the fire pumps and foam systems. To date, we have witnessed no failures involving the Fire Cap product to either system.

This product in our opinion is safe to handle and is non corrosive and environmentally friendly.

Do to my experience with this product and all the others, I would highly recommend the use of Fire Cap in your apparatus.

Respectfully,

A handwritten signature in black ink, appearing to read 'Ricke Rosselle', is written over the word 'Respectfully' and extends to the right.
